

Technical Details

- Required air pressure : 4-6 bars
- Hose Length : 10 meters
- Cleaning tank volume : 50 liters
- Max. Flow rate : 28 l/min
- Cleaning Solution : Water and Special Solution
- Dimensions : 900 x 600 x 850 mm (H x W x D)
- Weight : 50 kg

Main Advantages

- Cleaning the channels without Disassembling the mold.
- Does not require **ELECTRICITY!**
- Works with pressurized AIR.
- Uses Cleaning & Protecting solutions.
- Keeps and protects the mold channels Cleaner.
- Improves the Productivity.
- Ergonomic and compact Design.
- User Friendly control panel.

Working Principle

- The Solutions should be run in 3 steps.
 1. Cleaning Solution : Dissolves and removes **Rust and Lime** from the inner channels from
 2. Neutroliser Solution : Neutrolizes the cleaning solution and **Adjusts the pH** level of the channels.
 3. Protection Solution : To Prevent the channels from Rust and Lime and to build-up cleaner system.
